Dear Commissioner

The proposed settlement from FPL is not acceptable for Floridians. As a PSC member, be accountable and make FPL go on record about their goals at reducing carbon emissions. FPL needs to be committed to affordable energy and clean energy. We have been duped by too many corporations in the past that raise their prices to line the pockets of their CEOs and stockholders and give the taxpayers nothing more in return. Remember we all have to live here.

Thank you,

Deborah Cahill
