Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

First, we have not heard anything about what factors are pushing this rate increase. Second, the requested increase does seem too high compared to other requested increases in and out of of state.

Third, please explain if there are any reserves that could seed a movement to bury more

power lines. Understanding this is an expensive endeavor, how long would it take to recoup the expense as measured against constant repair to lines and poles?

Regards,

Thank you,
