Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

To PSC/FPL,

Your real clients are all the homeowners and businesses that pay electric bills. You think by raising rates over a few years will be less financially painful and the incremental increases will seem tolerably. You increases are for wall street investors only and those looking to line their pockets.

Your focus should be to update the power infrastructure with the current budget based upon

current rates. So do what's right for the true clients and quit the quid-pro-quo with big money politics.

Thank you,

Stephen Chrepta
