Chairman Gary Clark,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to find work.

I urge you to reconsider this rate increase.

This past year has been extremely challenging financially for many people in the state of Florida. Many residents lost their jobs and still have not been able to return to work. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to find work.

FPL has done nothing to improve its service as power still goes out everytime there's a bad thunderstorm & it takes them hours to restore the service.

I urge you to reconsider this rate increase. The last thing Floridians need now is a rate increase in their electric bill.
