**Subject:** We Can't Afford Higher Rates from FPL

Commissioner Art Graham,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills. We have done as much as money will allow to keep our bills as low as possible; keeping curtains and shades closed during day light hours has helped, replacing filters on schedule and adjusting thermostats when necessary.

This past year has been extremely challenging financially for many of us in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income. Medical insurance, drugs, treatments and Doctor visits are mandatory to continue our lives in Florida.

I urge you to reconsider this rate increase. If every vendor continues to increase their bills, many may be forced to default and go into foreclosure. Please don't allow this to happen as many retirees relatives are a thousand miles away, and unable to help. With few low income housing units available - our retired population on fixed incomes will be at odds, I beg you to help keep rates as low as possible.

I welcome a continued conversation with you on this subject.

Respectfully,  
Linda L. Dixon
