DEP Application No.: 0378587-008- EI/20

Dear Mr. Spoor:

Thank you for your application for an individual environmental resource permit for geotechnical investigations submitted on July 20, 2020, for the above referenced Site. A review of your application and supporting documentation indicates the application is incomplete. Please provide the information listed below and refer to this RAI in your response.

1. Thank you for providing the letter from the FDOT. Please provide either the FDOT permit or have FDOT sign on the application as the property owner as documentation of the applicant's real property interest. Applicant's Handbook Volume I, Section 4.2.3(d)

**NOTES:** Your application has been sent to commenting agencies for Coastal Zone Consistency Review as required by the Coastal Zone Management Act (CZMA). More information or project revisions may be required after comments are received. [Rule 62-330.062(2), F.A.C.]

To continue the processing of your application, the Department must receive a response within 90 days of this letter, November 16, 2020, unless a written request for additional time to provide the requested information is submitted and approved. It is the Department's desire to provide prompt turnaround times on permit applications, and a quicker response to this RAI shortens the timeframe for which a final decision on the application can be made. Pursuant to Chapter 62-330 and Section 120.60, F.S., failure of an applicant to provide timely requested information by the applicant deadline may result in denial of the application. You are encouraged to contact this office to discuss the items requested to assist you in developing a complete and adequate response.

Your processor will be Una Johnson and can be contacted at (850)595-0585,
