Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

It is unconscionable to me that FPL is requesting a rate hike in order to increase return for their investors. While I agree investors should expect a return guaranteed returns should not be paid by the consumer through rate increases. Florida residents have some of the highest monthly bills for electricity in the nation and FPL does not even have a measurable plan to protect our environment. A rate increase is unwarranted and the PSC must stand up to FPL and protect the consumer.

Thank you in advance for having the courage to do what must be done to keep big business from trampling the residents and homeowners of this state.

Thank you,

Mary Martin
