Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

As a newly minted Floridian whose now in our retirement years, chose this state for its easy way of living. However, we have encountered everything but. I understand that increases may be necessary. I also understand that with more people & construction; the demands for energy is high. But if it come off the generation of residents on fixed incomes and over

65...then we are headed down the wrong path. I emphatically disagree with the way this increase is going to affect my household and others like me in my retirement community.

Thank you,

S James
