Re: *Petition for approval of modifications to demand-side management program plan and participation standards, by Duke Energy Florida, LLC.; Docket No. 20210121-EG*

Dear Mr. Teitzman:

On behalf of Duke Energy Florida, LLC ("DEF"), please find enclosed for electronic filing in the above-referenced Docket, DEF's Response to Staff's Third Data Request (Nos. 1-7) propounded on October 07, 2021.

Thank you for your assistance in this matter. If you have any questions concerning this Response, please feel free to contact me at (727) 820-4692.

Respectfully,

/s/ Dianne M. Triplett

**DUKE ENERGY FLORIDA, LLC'S RESPONSE TO
STAFF'S THIRD DATA REQUEST RE. DEF'S PETITION FOR APPROVAL
OF MODIFICATIONS TO DEMAND-SIDE MANAGEMENT PROGRAM
PLAN AND PARTICIPATION STANDARDS**

1. Please refer to DEF's Energy Neighbor Fund for the following questions.
 - a. Please indicate the total dollars currently in this account, and the projected dollars for year-end 2022.

RESPONSE:

DEF first notes that the Energy Neighbor Fund is not funded in any way with regulated customer dollars. Rather, the fund is comprised of donations from customers and employees, matched by the Duke Energy ("DE") Foundation (which is funded entirely by shareholder dollars). Notwithstanding that the Energy Neighbor Fund is not regulated; DEF will share that through September it has received approximately \$156,000 from customer and employee donations along with approximately \$156,000 in matching funds from the DE Foundation for a total of \$312,000. All funds have been allocated to 14 Energy Neighbor Fund agencies.

- b. Please indicate whether or not funds in this account have been or could be used to assist the low-income customers with accounts more than 60 days in arrears participating in the Residential Load Management program.

RESPONSE:

The funds are provided to our Energy Neighbor Fund agency partners. Customers must only have unpaid charges and have a demonstrated financial hardship; they do not have to be 60 days in arrears. Customers must apply for funds through those agencies.

- i. If the funds have been used for this purpose, please indicate how many customers have been assisted, and how much assistance has been provided.

RESPONSE:

N/A.

2. Please refer to Attachment C of the petition, page 4. Please explain why the "Assistance Kits" will only be available to low-income customers.

RESPONSE:

The "Assistance Kits" are designed to provide additional support, that will be realized

in the form of electric bill savings, to low-income customers. As previously stated, DEF believes these low-income customers, who have likely been the most negatively impacted financially by COVID-19, are likely not able to afford to install the “Assistance Kit” measures on their own.

3. Please refer to DEF’s response to Staff’s Second Data Request, No. 13(a). If the \$30 gift card can be used for purposes other than bill relief, please explain why DEF believes that the gift card could help incentivize customers to pay their energy bills, and thus allow DEF to maintain the associated demand response resource.

RESPONSE:

The purpose of the \$30 gift card is to provide immediate relief to customers in need. While DEF cannot require a participating customer to use the \$30 gift card to pay their energy bills, the intent of the incentive to be used to pay energy bills will be clearly communicated to participating customers. DEF would also note that, if low-income customers use the gift card for another purpose (like groceries), that could free up additional funds that may be used to pay their energy bills.

4. Please refer to DEF’s response to Staff’s Second Data Request, No. 14, Attachment B for the following questions.
 - a. Please indicate whether or not all of the customers identified participate in the Residential Load Management program. If not, please provide a revised document, in Microsoft Excel Format, identifying only the customers that participate in the program. As part of this response, please identify the monthly credit amount each customer receives for participating in this program.

RESPONSE:

Attachment B was incorrect (as explained further below) and has been revised.

The monthly credit amount that each customer receives is dependent on the number of load management devices the customer has installed and the customer’s usage.

- i. If all customers identified are program participants, please explain the increase from the 453 low-income customer accounts more than 60 days in arrears identified in DEF’s response to Staff’s First Data Request, No. 22, to the 7,090 customers identified in Attachment B.

RESPONSE:

The 7,090 customers identified in the previous Attachment B was not an accurate representation of eligible customers for the \$30 “Assistance” incentive. Unfortunately, the 7,090 was the results of a

Company error in applying the necessary eligibility filters and only reflected low-income customers more than 60 days in arrears and not the requirement to be a participant in one of the Company's residential load management programs. The attachment has now been revised to show low-income customers more than 60 days in arrears who are load management program participants. Please see the revised Attachment B attached hereto which reflects 1,689 customers.

- b. Please indicate whether or not participating low-income customers that currently participate in other assistance programs are eligible to receive the \$30 gift card.

RESPONSE:

Yes, if these low-income customers qualify for other assistance programs, they would also be eligible for the gift card (assuming they participate in the Residential Load Management program and are more than 60 days in arrears).

5. For the Home Energy Check program, please provide a table identifying the current monthly bill impact on the general body of customers' monthly bills (at 1,000 kilowatt-hours (kWh) and 1,200 kWh) compared to the projected monthly bill impact on the general body of customers' monthly bills following the modifications for the years 2021 through 2024.

RESPONSE:

Please see Attachment A attached hereto.

6. For the Residential Load Management program, please provide a table identifying the current monthly bill impact on the general body of customers' monthly bills (at 1,000 kWh and 1,200 kWh) compared to the projected monthly bill impact on the general body of customers' monthly bills following these modifications for the years 2021 through 2022.

RESPONSE:

Please see Attachment A attached hereto.

7. For the Neighborhood Energy Saver program, please provide a table identifying the current monthly bill impact on the general body of customers' monthly bills (at 1,000 kWh and 1,200 kWh) compared to the projected monthly bill impact on the general body of customers' monthly bills following the modifications for the years 2022 through 2024.

RESPONSE:

Please see Attachment A attached hereto.
