Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

My family has struggled to stay afloat during the pandemic and this rate increase feels like a slap in the face to us. We are lifelong Floridians. Allowing a 10.6% return on equity when all other major utility providers are below 10% is appalling during these times. Not requiring a solid clean energy commitment from FPL while approving these massive increases is equally shocking. Please reconsider these positions for the sake of Florida and it's citizens.

Thank you,

Quincy Schider-Heisel
