Item 4

VOTE SHEET

FILED 11/2/2021
DOCUMENT NO. 12516-2021
FPSC - COMMISSION CLERK

Docket No. 20210132-EG – Petition of Florida Power & Light Company for approval to integrate 2020-2024 demand-side management plans and approval of regulatory asset.

Issue 1: If the Commission approves FPL’s pending request for unified rates in Docket No. 20210015-EI, should the Commission also approve FPL’s proposed Integrated DSM Plan, associated updated Program Standards and the Company’s proposal to create a regulatory asset associated with Gulf’s Energy Select DSM program?

Recommendation: Yes. FPL’s Integrated DSM Plan is the combination of FPL and Gulf’s previously approved DSM plans, and is projected to meet the conservation goals established in the 2019 FEECA Goal Setting proceeding. A brief description of each program included in the Integrated DSM Plan is included as Attachment A of staff’s memorandum dated October 21, 2021. Staff recommends that costs associated with the Integrated DSM Plan should be eligible for cost recovery through FPL’s ECCR factor.

Based on staff’s review, the retirement of capital assets associated with the Energy Select program should be approved and the associated unrecovered plant balance in the amount of \$22.7 million should be recorded as a regulatory asset. Additionally, the recovery of the regulatory asset through the ECCR over a 5-year period should also be approved.

If the Commission does not approve unified rates in Docket No. 20210015-EI, no action is needed to create a regulatory asset for the Energy Select program, and the existing DSM plans should be continued until the new DSM plans are approved by the Commission.
