Subject: RE: [EXTERNAL] Docket No. 20210160-EU

Good morning Sevini,

There was no additional area annexed by the City of Winter Park subject to this territorial modification. After the separation by the City off our Duke system in 2005, Duke still served areas within the City of Winter Park. As some areas have continued to develop within the City, there became (or would need) many duplicate facilities by both utilities to serve their respective customers. This boundary modification is to address small areas that would eliminate duplicate facilities, make a more continuous boundary, as well as to address certain parcels that were split by the territorial boundary line so that those parcels would be served by the City.

Please let me know if you have any additional questions.

Stephanie
