Good Afternoon, Mr. and Mrs. Mingerink.

We will be placing your comments below in consumer correspondence in Docket No. 20200226, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Docket #20200226-SU

Docket #20200226-SU

Our names are Ken & Sally Mingerink. We live on Don Pedro Island and we formally requesting that the PSC deny EU'S application for waste water service.

We live in HOA with 39 doors and the majority are duplexes and close together. We have not been informed of how EU is going to handle our situation.

EU has no experience installing and running a sewer system.

Uncertain hook up costs. He started with \$20,000.00 per unit to \$11,928.00, that's too much of a difference. That shows that EU has no experience in running a sewer system and pricing the rates.

There is no back-up plan if the power goes out for an extended period of time. Other than owners having to own their generator. Can you imagine a large number of generators running on these small islands and how much of an impact to the environment.

Sincerely
Kenneth & Sally Mingerink
