Dear Commissioner,

I am writing this email to formally request that the PSC deny the EU's application for wastewater service on Little Gasparilla Island. I have owned a vacation home on the island since 1996. My children and family have enjoyed the tranquility of this island for many years. It is my intention to leave this little piece of paradise to my children when I die. After reviewing the expected costs to put in a wastewater system on the island, I realize that I will not be able to maintain the home I love so much. The costs are prohibitive for me as I am sure it will force many others to sell their places too. The proposed costs far exceed any other wastewater service in the state and I find that totally unacceptable and unfair. The costs are not equitable to what other people are paying for the same services across the county and state. In addition, the need for a generator as a backup and installation of an additional electrical panel are ridiculous and I am appalled that as a commissioner you would even think about voting yes for this project. Please, I ask you to put yourself in my place and make the right decision for the residents of Palm Island and Little Gasparilla Island. It is truly heartbreaking for me to think

about being forced to sell my place because of the exorbitant and unrealistic expense that would be imposed on me. Please vote no!!!
