BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Fuel and Purchased Power Cost Recovery) DOCKET NO. 20220001-EI
Clause with Generating Performance Incentive)
Factor.) FILED: January 19, 2022

**PETITION OF TAMPA ELECTRIC COMPANY FOR A MID-COURSE
CORRECTION OF ITS FUEL COST RECOVERY FACTORS AND
CAPACITY COST RECOVERY FACTORS**

Tampa Electric Company (“Tampa Electric” or “company”), pursuant to Rule 25-6.0424, Florida Administrative Code, hereby petitions the Commission for approval of the company’s proposed mid-course correction of its fuel cost recovery factors and capacity cost recovery factors, and in support thereof says:

1. Tampa Electric is an investor-owned electric utility subject to the Commission’s jurisdiction pursuant to Chapter 366, Florida Statutes. Tampa Electric serves retail customers in Hillsborough and portions of Polk, Pinellas, and Pasco Counties in Florida. The company’s principal offices are located at 702 North Franklin Street, Tampa, Florida 33602.

2. The persons to whom all notices and other documents should be sent in connection with this docket are:

Paula K. Brown
regdept@tecoenergy.com
Manager, Regulatory Coordination
Tampa Electric Company
Post Office Box 111
Tampa, FL 33601
(813) 228-1444
(813) 228-1770 (fax)

Ausley McMullen
Post Office Box 391
Tallahassee, FL 32302
(850) 224-9115
(850) 222-7952 (fax)

3. The Commission has jurisdiction pursuant to Sections 366.04, 366.05 and 366.06, Florida Statutes.

4. Tampa Electric is a corporation organized and existing under the laws of the State of Florida and is an electric public utility as defined in Section 366.02(2), Florida Statutes.

5. This Petition is being filed consistent with Rule 28-106.201, Florida Administrative Code. The agency affected is the Florida Public Service Commission, located at 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399. This case does not involve reversal or modification of an agency decision or an agency's proposed action. Therefore, subparagraph (c) and portions of subparagraphs (b), (e), (f) and (g) of subsection (2) of that rule are not applicable to this Petition. In compliance with subparagraph (d), Tampa Electric states that it is not known which, if any, of the issues of material fact set forth in the body of this Petition may be disputed by any others who may plan to participate in this proceeding. The discussion below demonstrates how the petitioner's substantial interests will be affected by the agency determination.

6. Tampa Electric's current fuel and purchased power cost recovery factors ("fuel factors" or "factors") were approved by bench decision at the November 2, 2021 fuel and purchased power cost recovery clause hearing, for application during the period January 2022 through December 2022. The new factors became effective with the first billing cycle for January 2022.

7. In Order No. 13694 issued in Docket No. 840001-EI on September 20, 1984, the Commission authorized each utility to seek modifications to its fuel factors when it appears that its projected fuel revenues will result in an over- or under-recovery in excess

of 10 percent. This authorization was later codified in Rule 25-6.0424 of the Florida Administrative Code.

8. Since the filing, approval, and implementation of Tampa Electric's current factors, the company has monitored its fuel and purchased power cost recovery revenue and expenses on an ongoing basis. Based on sustained higher natural gas price forecasts, the company submitted a petition for mid-course correction on November 19, 2021. Following that filing, natural gas price forecasts were moderated by mild winter weather, and the company withdrew its petition on January 3, 2022. Based on actual 2021 results and updated estimates for 2022, the company now projects that an under-recovery greater than the 10 percent threshold set forth in Rule 25-6.0424, but lower than the under-recovery projected in the November 19, 2021 filing, is likely to occur absent a modification to the company's current fuel factors.

9. Tampa Electric calculated its total fuel and purchased power under-recovery for 2021 to be \$72.1 million, including actual January through December 2021 fuel and purchased power costs, as shown in Exhibit "A". The re-projected total fuel and net power transactions amount for January 2022 through December 2022 of \$691.5 million reflects an increase of \$92.7 million, compared to the projection approved by this Commission at the fuel clause hearing held on November 2, 2021. The projected under-recovery for 2022 is over 10 percent greater than Tampa Electric's forecasted jurisdictional system fuel costs for the period on which the current fuel factors are based. Pursuant to Rule 25-6.0424(1)(a), Florida Administrative Code, the estimated percentage calculated using the estimated 2022 end-of-period total net true-up divided by the 2022 total estimated jurisdictional fuel revenue applicable to the period is 27 percent, including the actual 2021

end of year true-up amount. Attached hereto as Exhibit “B” is a schedule demonstrating the expected 2022 fuel and purchased power under-recovery amount absent an adjustment.

10. The primary cause of the under-recovery is a significant increase, of approximately 14 percent, in projected 2022 natural gas prices compared to the previously projected 2022 natural gas prices used to set the company’s original January through December 2022 fuel factors.

11. With this filing, Tampa Electric also updated its planned power purchases with updated pricing and savings of market power purchases because the price of natural gas affects the power market.

12. Accordingly, Tampa Electric proposes modifications to its fuel factors, effective with the first billing cycle for April 2022. If approved, the fuel charge for a residential customer using 1,000 kWh (“typical bill”) will be \$37.91 per month for the 9-month period. Attached hereto as Exhibit “C” are revised and updated “E” Schedules which consider the company’s currently projected under-recovery of \$165.6 million and a recalculation of the April through December 2022 fuel factors in a manner designed to eliminate the projected under-recovery.

13. The re-projected 2022 under-recovery amount includes the carry-forward of the actual 2021 \$72.1 million fuel under-recovery. The revised fuel factors are shown on Exhibit “C,” Schedule E1-E. The calculation of the 9-month fuel factors is shown on Exhibit “C,” Schedule E1-D.

14. Tampa Electric is also proposing an increase to its capacity cost recovery factors for use in 2022. Based on updated estimates for 2022, the company now projects that an under-recovery greater than the 10 percent threshold set forth in Rule 25-6.0424 is likely to occur absent a modification to the company’s current capacity

adjustment factors. The capacity clause projected under-recovery is caused primarily by additional purchased power that includes capacity payments. The company now projects an under-recovery of \$3.0 million for 2022. Accordingly, Tampa Electric proposes modifications to its capacity factors, effective with the first billing cycle for April 2022. The estimated percentage calculated using the estimated end-of-period total net true-up divided by the period total estimated jurisdictional capacity revenue is 60 percent, including the actual 2021 year-end true-up amount. Attached hereto as Exhibit “D” is a schedule demonstrating the expected 2022 capacity under-recovery amount absent an adjustment.

15. The projected 2022 capacity under-recovery is \$3.0 million, including the actual 2021 \$40 thousand under-recovery amount, which is the total to be included in the mid-course adjustment. If approved, the revised capacity charge for a residential customer using 1,000 kWh (“typical bill”) will be \$0.53 per month for the 9-month period. Attached as Exhibit “E” are the revised capacity cost recovery schedules to reflect the proposed change in capacity cost recovery factors.

16. Attached hereto as Schedule E10 of Exhibit “C” is a comparison of an average residential bill reflecting the January 2022 fuel adjustment and capacity cost recovery factors approved at the November 2, 2021 clauses hearing and the modified factors proposed herein. For April 2022 through December 2022 billing cycles, the residential typical bill will be \$10.96 higher than the January 2022 typical bill.

17. Revised tariff sheets in “clean” and “legislative” format are attached as Exhibit “F.”

18. Because the proposed fuel adjustment and capacity cost recovery factor modifications are based on an effective date beginning with the first billing cycle for April

2022, Tampa Electric asks that this petition be scheduled for consideration on or before the March 1, 2022 Commission Agenda Conference to allow the company to provide notice to customers. In addition, Tampa Electric requests a waiver of the 30-day customer notice requirement if the petition is considered at the March 1, 2022 Agenda Conference. The company's first billing cycle for April 2022 will occur on April 1, 2022, or 30 days after the March 1st Agenda Conference. Given the small timing difference, the company's ability to post notices of the proposed rate change on bills and on its website, and the benefit of implementing the rates sooner to mitigate the monthly bill increase by spreading the increase over a greater number of months than if the implementation is delayed, the waiver is warranted.

WHEREFORE, Tampa Electric urges the Commission to approve the company's proposed modifications to its fuel and purchased power cost recovery factors and capacity cost recovery factors as set forth in the schedules attached hereto, for application on customer bills beginning with bills for April 2022 and thereafter until modified by subsequent Commission order, and approve the revised tariff sheets provided in Exhibit "E." To achieve the forgoing effective date, the company further requests that this matter be considered by the Commission on or before the March 1, 2022 Agenda Conference.

DATED this 19th day of January 2022.

Respectfully submitted,

Malcolm N. Means

**TAMPA ELECTRIC COMPANY
INCENTIVE FACTOR AND TRUE-UP FACTOR
FOR THE PERIOD: APRIL 2022 THROUGH DECEMBER 2022**

SCHEDULE E1-C

1. TOTAL AMOUNT OF ADJUSTMENTS

A.	GENERATING PERFORMANCE INCENTIVE REWARD / (PENALTY) (January 2022 through December 2022)	\$3,673,726
B.	TRUE-UP OVER / (UNDER) RECOVERED (April 2022 through December 2022)	(\$97,303,593)
C.	OPTIMIZATION MECHANISM GAIN / (LOSS) (January 2022 through December 2022)	\$1,285,228

2. TOTAL SALES

(April 2022 through December 2022)	15,611,779	MWh
(January 2022 through December 2022)	19,807,340	

3. ADJUSTMENT FACTORS

A.	GENERATING PERFORMANCE INCENTIVE FACTOR (Using Effective MWh Sales of 19,776,928)	0.0186 Cents/kWh
B.	TRUE-UP FACTOR (Using Effective MWh Sales of 15,588,562)	0.6242 Cents/kWh
C.	OPTIMIZATION MECHANISM FACTOR (Using Effective MWh Sales of 19,776,928)	0.0065 Cents/kWh
