Subject: Docket #20200226-SU

Letter from an island resident, Nicolas Zakov, 380 N Gulf Blvd.

To:

Public Service Commission

Clerk of the Commission

Commissioner LaRosa

Commissioner Clark

Commissioner Passidomo

Subject: Docket #20200226-SU

Dear Commissioners:

This letter is to formally ask that you deny the application of Environmental Utilities, LLC. to provide a central sewer system on Don Pedro-Knight Islands.

We are a beautiful, barrier island with only one paved road accessible only via a car passenger ferry or private boat. Our quality of life is very important to us. I retired just recently and would like to maintain the tranquil living we experience here.

I am in the process of installing a new septic system at my home which is costing \$19,000. This life of this system is about 16 years and I do not want to pay for a sewer system in the near future.

The uncertainty of the applicant's expertise is questionable and I have not seen any documentation that indicates the need for a sewer system. Who will be in charge of oversight of this project considering the applicant's lack of technical ability? What is the applicant's financial ability?

Sincerely,

From Nicholas Zakov
