**Subject:** RE: Docket #20200226-SU

Dear Commissioners:

This is a second supplemental notice from David Adams. I own property at 8356 Little Gasparilla Island. I just received the email below.

As you can see from the message below, the average operating cost for a Charlotte County Septic to Sewer project is \$67.22 per residence per month.

I would like PSC staff to investigate whether EU is willing to match the average monthly operating cost that Charlotte County charges for other conversions.

Denying the application and allowing Charlotte County to complete and operate the septic to sewer conversion will save rate payers over \$100 per month (maybe more), based on the numbers that have been published to residents.

Thank you,

David Adams

**Subject:** RE: Little Gasparilla proposed Sewer project

A typical sewer charge for a residential sewer customer using 4,000 gallons is \$67.22. We estimate the average household uses approximately 4,000 a month.

Please let me know if you have any additional questions.
