**Subject:** Environmental Utilities, LLC - Docket No. 20200226-SU

We have been coming to Little Gasparilla Island since 1977 and have owned a home on the island continuously since 1981. We have seen a steady decline in gulf and bay water quality. While there are certainly more than one factor causing this, it is pretty clear that the discharge from septic tanks is a contributing factor to poor water quality. Allowing installation of the wastewater system on Little Gasparilla Island will be a benefit to the waters surrounding the island and we are for granting of the wastewater certificate.
