Subject: docket no. 20200226-su

Hello,
I am writing in regards to docket no. 20200226-su. We do not support Environmental utilities!

Our family has owned a home on LGI since 1996 at 8890 Gulf St. We have not had any problems with our septic tank. We do not understand why we would be forced to hook up with Environmental Utilities. Who is this one man company? What references can he provide? What educational background does he have? Again, we do not support Environmental utilities.

We were forced to hook up with the water and do not want to be forced to do the same with our septic. We had an environmentally friendly cistern tank to collect rainwater that actually tested better than what we were forced to hook up and use.

Respectfully, we do not support this proposal!

Should you have any questions or concerns, please do not hesitate to contact us at 813-629-2111 or email us melissastead16@gmail.com.

Thank you,
