Subject: Sewer on Palm Island

- 1.) I do not feel that a sewer is required at this time
- 2.) I did not request a sewer service for the island especially a private owned sewer service .
- 3.) I do not think the individual has the island or it's residence as a priority.
- 4.) If you approve a sewer system that is not built or owned by the county it should be owned by the island residents as is the Boca Bridge.
- 5.) The current bidder is only in it for the money and control and as far as I can tell has absolutely no experience. Why are there no other bids? I did not believe that the county could issue a contract with out at least 3 viable experienced bidders.
- 6.) I have not seen any proof of financing or the charges that are to be levied on homeowners. This is totally UN- American taxing without representation by a non governmental company.
- 7.) PLEASE DENY EU's APPLICATION

My wife and I own 228/230 and 211 N. Gulf Blvd. on Palm Island.

Ronald and Denise Marten
