Dear commissioner, because we live on a barrier island, it is important to our shores and fisheries to put in a sewer. We are stewards of the land. With the number of lots that have sold during Covid, the number of septic fields will go up making the shallow grounds work harder or fail leading to more red tide, killing more aquatic life. please grant the sewer.

Thank you.

Terri,

Subject: {BULK} Sewers on PI
Importance: Low

My husband & I, Stewart & Sharon Saad, own 3 lots on Palm Island. One lot is developed and the other 2 lots will be developed in the near future.
We support Environmental Utilities efforts to convert septic to sewer.
Septic is very toxic and horrible for the environment.
Thank you,
Stewart & Sharon Saad
