Subject: FPL Rate Increase

The FPL rate increase was over 20%. Isn't it your job to manage this sort of thing? How do **YOU** justify allowing an increase of over 20%?

Watching the media and Desantis dance around and not address the issue, it appears that FPL is writing the script. I've called and spoken with FPL. They do the same thing. They use the same verbiage. They talk about usage, they talk about fees, they talk about fuel. They will NOT talk about the increase of over 20%. I was actually told by an FPL employee that they did not have information about what drove the 20% increase.

Most assume the rate increase ties to fuel pricing. That's BS. FPL buys fuel over a year out. They buy futures.

The BS FPL is saying about future rate decreases is a joke. Something will happen and the consumers will never see the type of reduction they are claiming. I hope that this commission didn't actually accept that empty promise at face value.

I notice all 5 of you have ties to Desantis. And you allowed an increase of over 20%. Was Desantis aware of this rate increase prior to it being approved? **Please answer that question.**

I'm requesting a full review of the merger and approval process and all information/records involved.

Who do I need to contact to request a FOIA records release of all records and communication concerning the merger and rate increase?

Good morning,

I am still waiting on a response.

I guess you guys also hate Ron Desantis because you are the only negative I gave ever heard about him.

And that negative is getting louder.

Thanks,

Good afternoon,

Do you hate the people of Northwest Florida? What you are allowing FPL to do to electric rates in NW FL, the poorest part of Florida is criminal.

I would like for each of you to call me so I can explain to you what life is like for people that do not have the kind of money you have.

Please and thank you.

Thanks,
MICHAEL EVANS

Chairman Gary Clark,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to find work.

I urge you to reconsider this rate increase.
