RE: ENGINEERING ASSISTANCE FOR CERTIFICATED AREA AND SUPPORT SERVICES

Dear Mr. Boyer:

Giffels-Webster Engineers, Inc. (GWE) can provide engineering assistance, territory mappings and preliminary layouts for assisting with the State and local requirements to set up your Utility.

The time it takes for this initial effort is variable and difficult to quantify. As discussed we will proceed based on our standard hourly rates, which is fair for both parties due to the uncertainties. We do not anticipate exceeding \$5000 without obtaining prior approval from you.

Estimated Fee..... \$5,000 (hourly)

After you have had an opportunity to review this proposal, please do not hesitate to contact us should you have any questions or need additional information. If this proposal is acceptable, kindly sign and return one copy of this proposal to our office which will act as our authorization to proceed with the work as outlined above.
