RE: GRANT FUNDING ASSISTANCE/RESERCH FOR ENVIRONMENTAL UTILITIES, LLC

Dear Mr. Boyer:

Giffels-Webster Engineers (GWE) can provide preliminary research for possible grant funding for Environmental Utilities, LLC. Our firm works with PRM Group, LLC headed up by Dianna Bello, who has extensive experience in seeking and obtaining grants, loans and other sources of funding for municipalities and utilities.

Since this is in the early stages, I think some preliminary research as to what opportunities are out there may be beneficial. An initial budget of \$1500 will allow up to 10 hours of research by PRM Group, as well as some of our time to help determine what opportunities may be available.

If this is something you would like us to pursue kindly sign and return one copy of this proposal to our office which will act as our authorization to proceed with the work as outlined above.
