In re: Petition for approval of waiver of CIAC)
Rule No. 25-6.064, F.A.C. for new line) DOCKET NO. 20200011-EI
Extensions serving electric vehicle fast)
charging stations, by Tampa Electric Company)
_____) FILED: February 28, 2022

SECOND ANNUAL REPORT

Tampa Electric Company (“Tampa Electric” or “company”) files this Second Annual Report and says:

1. On April 26, 2020, the Florida Public Service Commission (“Commission”) entered an Order in this docket granting Tampa Electric’s Petition seeking a variance or waiver of Rule 25-6.064, F.A.C. for new line extensions serving electric vehicle fast charging stations. *See* Order No. PSC-2020-0108-PAA-EI; *see also* Order No. PSC-2020-0136-CO-EI, issued May 8, 2020.

2. The Commission’s Order requires Tampa Electric to submit a report by March 1 of each year during the 5-year variance/waiver period. The report must include three categories of information for the preceding calendar year.

3. Tampa Electric submitted its First Annual Report on February 26, 2021 and a supplement on March 22, 2021. *See* Doc. Nos. 02460-2021; 02992-2021.

4. Tampa Electric hereby submits its Second Annual Report. Each category of information required by Order No. PSC-2020-0108-PAA-EI, along with Tampa Electric’s response, is set out below:

- **For each EV fast charger line extension installed during the reporting period, the number of EV fast chargers served, the total line extension cost, the CIAC collected, the total annual revenue collected (demand and energy), the line extension usage metrics (demand and energy), and the balance of any related cross subsidy (total cost less CIAC collected less total energy/demand revenue collected to date).**

Tampa Electric has not constructed any primary line extensions to serve direct current fast chargers during the reporting period. The company has no specific information regarding why there has been no activity under the variance.

- **System-wide Totals (summed for all years since the time the temporary rule waiver/variance was granted) for each of the following: EV fast charger line extensions installed, the number of EV fast chargers served, EV fast charger line extension costs, CIAC collected, total annual revenue collected (demand and energy), line extension usage metrics (demand and energy), and the balance of any related cross subsidy (total cost less CIAC collected less total energy/demand revenue collected to date).**

None. Please see the response above.

- **Projected annual growth for the next five years in TECO’s service territory of EVs, EV fast chargers, and EV fast charger line extensions.**

Please see the table below setting out Tampa Electric’s projections for growth of EVs and EV fast chargers in the company’s service territory over the next five years. The company does not currently have a projection of fast charger line extensions.

Year	Number of Electric Vehicles	Number of EV Fast Chargers
2022	12,218	97
2023	14,890	107
2024	17,742	118
2025	20,785	128
2026	24,119	139

5. Tampa Electric will continue to collect the information required for annual reports in this docket and will provide its next annual report by March 1, 2023.

DATED this 28th day of February 2022.

Respectfully submitted,

J. JEFFRY WAHLEN
