Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

My power bill doubled from this time last year. February 2021 my bill was 344\$ my bill February 2022 688\$. I can't afford this,I have to choose to give my children power or feed them?? How is this ok for them to do this to our community? I am begging someone to help us before we see a hike in the number of homeless family's and children in Florida. I am at a loss for words and honesty don't know how I am going to pay a electric bill that is almost as much as my rent. We suffer so the rich can be richer and these high dollar greedy corporations can fill there pockets. I pray that they never have to know what it's like to not be able to feed there children or have to choose between lights or food for them. This saddens my heart that people can be so greedy and to know that they can sleep comfortably at night because they don't have to suffer,they don't have to worry about not having heat/air for there children because they take from the people already struggling to make ends meet.

Thank you,

Stephanie Love
