Dear Mr Clark,

It's not the change of service that has us all agitated it's the fact that EU is a solution looking for a problem. Everything is fine the way it is. And if it isn't let's see the study that proves it. And if it does need to be done let's find the most qualified company to execute the work, not the first and only carpet bagger that comes along.

We all hope that this project is rejected or at the very least tabled until a full and holistic assessment is completed.

Thank you for your consideration,

Doug & Joyce Young

I want to stress how valuable the customer perspective is to me. Tomorrow the parties in this case will be filing briefs, laying out their arguments, and we are scheduled to make a decision the morning of Tuesday, May 3rd at our monthly Agenda Conference. If you would like to watch the Agenda Conference you may go to FloridaPSC.com, where it will be live streamed.
