**Subject:** RE. Docket #20200226-SU

Please read the attached letter opposing EU's attempt to install sewage at LGI. Thank you.

Docket #20200226-SU

To Whom It May Concern;

We have been out on Little Gasparilla Island for 42 years. We bought our lot, cleared it up by hand and over 4 years built our cottage. This was a time that the average family could do it if they wanted to. Now we are retired and looking forward to spending our time there but due to things we have no control over we are being pushed off. Other counties that have brought out sewer systems gave the land owner 10 years to pay through property taxes. Jack Boyer is going to want all the money at once. We can't afford it. Brevard county even passed a one cent sales tax increase to help land owners and county differ the cost to help clean up Indian river Lagoon and install septic systems. If Charlotte County was really all that concerned about the water quality of the harbor, they would be proactive with a plan and program. Please deny the request of EU for sewer setup.

Joe Tremblay
