Good morning

Just want to express my concern for the additional increase in my electric bill coming up next month Currently mine is \$9.70 while sending power back to FPL of approximately 300 kw and not getting reimbursed for this !

Seems they are making out nicely with the help of you I spent over 25 thousand for solar system and would like to be reimbursed for "green" energy Please send me 30\$ a month to help Waiting for you to work for the common folks

> Dear Mr. Moore:

>

> This email is in response to your recent inquiry to the Florida Public Service Commission (FPSC) regarding Florida Power & Light (FPL) and the minimum bill charge.

>

> The Florida Public Service Commission approved Florida Power & Light Company's general base rate settlement agreement in Order No. PSC-2021-0446-S-EI, issued on December 2, 2021, in Docket No. 20210015-EI. The settlement agreement was entered into by FPL and various parties representing consumers, including the Office of the Public Counsel (OPC) who advocates on behalf of Florida consumers. The settlement agreement includes numerous provisions with regards to FPL's base rates through the end of 2025.

>

> The agreement also contains a provision that will raise the minimum bill charge to \$25 for all residential and general service non-demand customers. The minimum bill provision is tentatively scheduled to go into effect in May 2022, once FPL's billing system modifications are complete. FPL will notify its customers of the new minimum bill in bill inserts 30 days prior to implementation.

>

> The minimum monthly bill does not replace the existing customer charge; instead, FPL will only charge the minimum bill when a customer's total monthly bill does not exceed \$25, excluding any taxes or other additional charges.

>

> FPL explained that the minimum bill provision was included in the settlement agreement to ensure that all residential and general service non-demand customers contribute towards fixed costs of maintaining the electric system, costs which exist as a result of serving even limited amounts of energy to customers. The Commission approved the settlement agreement as being in the public interest when taken as a whole, and providing a comprehensive and balanced resolution to FPL's original petition for a base rate increase that provides rate stability for FPL's customers.

>

> We have added your concerns to our files as a protest to the FPL's Rate Case, docket 20210015.
