We are writing to show our support for the staff recommendation to deny this application. During this process island residents have researched the issue from many perspectives: financial, environmental, etc. and presented intelligent research based information to support the negative impact that this will have on our island community. As is often the case it is the people nearest to the situation who can most clearly see the overall impact of an action. Your willingness and the staff's willingness to listen to our position is greatly appreciated. We urge you to go forward by supporting staff's decision to deny this application.
