Subject: RE: Docket 20220000 Ten-year site plans for FP&L

Good Morning, FITAD.

We will be placing your comments below in consumer correspondence in Docket No. 20220000, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Docket 20220000 Ten-year site plans for FP&L

I couldn't not make it to this event but I would like to submit my comment for the ten-year site plans submitted by Florida's electric utilities.

FPL is asking for new extreme winter load forecasts based on the Texas Winter Storm. Minded this is a once in however many years storm. It is not the average winter storm in this area. Florida's winter storm are rather mild considered the rest of the nation. I do not agree with this plan and think FP&L is asking for too much.

It will allow FP&L to build and raise rates for new generation for implausible winter forecasts. Specifically more natural gas, which has been experiencing price volatility like never before in which they can ask for even more money. This is ridiculous scenario planning and just another money grab when the last one has created chaos and harmed real lives throughout NW FL and continues to do so. I am against this plan. Thank you. Ms. Jayleen Fretwell, Pensacola, FL
