Subject: RE:Docket#20200226-SU

Wayne Ator Cassie Ator , 390 North Gulf Blvd.

We are strongly opposed to EUs application to install sewers on Palm Island. We have no evidence of issues with water quality caused by septic. We have a new system that continues to be working fine. Many islanders participate in a share the barge program that allows pumping when necessary. There is no evidence that applicant has the skill or finances to back such a huge project.

We appreciate the time and consideration you have given this important issue. We thank the staff for their reasonable recommendation to deny.

Sincerely, Cassie and Wayne Ator
