Subject: Docket #20200226-SU

Good morning Commissioner LaRosa,

I would like to thank the PSC staff and Commissioners for their attention to the details concerning the Palm Island / Done Pedro Island case and listening to our concerns. As a homeowner on the island, the local wildlife and ecology is very important to me and my family. There is even a healthy population of gopher tortoises on the island, a protected species that is very important for hundreds of other species of animals; most of their population is in decline in other places. We also participate in the PIE Batch Pump-Out Program, which helps the septic systems on the island from overflowing and poisoning the local land. Please follow the staff's recommendation to deny EU's application (Docket #20200226-SU).

Sarah Daniel
Homeowner
Palm Island
