Commissioners:

As a 20-year resident of Don Pedro Island, it was not only encouraging, but also gratifying to read the PSC Staff's recommendation to deny the application of Environmental Utilities. Encouraging to realize that after so much time and effort this action could have a positive outcome for the future of our island, and gratifying that the united voices of the islanders seem to have been heard and taken seriously. I cannot emphasize enough how strongly I hope that you will follow the Staff's recommendation to deny.

The time and effort expended by you Commissioners and the staff members are most appreciated by the citizens who have been involved in this process, and I thank you for your careful consideration of this application.

Thank you.
