**COMPLAINT INFORMATION**

Complaint: Other Complaint against Florida Power & Light Company

Details:

I'm very unhappy with the increase in the minimum charges. If the rate hike is due to increased energy costs then for solar power owners like myself who use far less power from FPL because I generate excess should be charged less since they consume far less power from FPL than the average user. This policy will discourage solar use instead of encouraging which is the wrong policy. A public hearing should be held regarding this rate increase .
