Details:

Why am I being charged a minimum base fee Of \$16.01 plus a base bill fee of \$8.99?. I have solar panels and use no energy from the grid. In fact over 75% of the electricity that I produce goes in to the grid which FPL then sells to the other customers at the going kWh rate that they pay ZERO to produce, and then have the gall to charge a tax on these trumped-up charges. What service am I missing here? I believe FPL just wants to appease their stock holders. Who pays me for the free electricity that I provide to FPL? This smaks as a protection fee charged by the mafia. Please enlighten me as to these so-called fees, and what FPL does with the free electricity they get from me. I should be remunerated for this service I provide FPL.
