Subject: Ten Year Site Plan Comments to be Filed in Docket No. 20220000

Dear Clerk Of PSC,

You MUST find Florida Power and Light's (FPL) preferred 10-year site plan to be unsuitable! Please! We cannot live with more increases.

People will/have died! FPL's projections are not probable and this will have them increase our bills more, even before the heat of summer!

FPL can pass the full cost of their projects, plus more profit for new infrastructure, onto customers.... this needs to stop! Amend the law for current times. Make them accountable. As you well know the current rules just motivate FPL to build unnecessary infrastructure They have already raised our bills higher than I've ever seen.

Stand with us!!!! Reject FPL's proposed site plan and insist they invest in efficiency programs that save money, save energy, and help us meet our needs when the weather is most unbearable.

Sincerely needing your help,

Sincerely,

Mrs. Lisa Evers
