Subject: Ten Year Site Plan Comments to be Filed in Docket No. 20220000

Dear Clerk Of PSC,

Florida Power and Light's (FPL) preferred 10-year site plan is unsuitable. Projection of winter weather forecast is extremely unlikely with no sound evidence to support it. FPL's goal is to make citizens bills increase to gain corporate profits. Create programs that help customers with real weather risks like extreme heat during the summer months.

FPL intends to pass full cost of their projects, plus more profit for new infrastructure customers. This does not serve customers.

That motivates FPL to build more than what we actually need. They are already raising our bills higher than I've seen in my time as a Florida resident. Stand with us: reject FPL's proposed site plan and urge them to invest in efficiency programs that save money, save energy, and help us meet our needs when the weather is most unbearable.

Sincerely,

Sincerely,
Mrs Cheryl Fox
