#### COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company

Details:

Dear Sirs:

This month I was surprised to find that my electricity bill from FPL went from \$10.15 to \$28.23. Our home has a solar installation and we use virtually no electricity from FPL. Our bill represents a base charge of \$8.99 and a "minimum base bill" of \$16.01. This totals \$25.00 with a tax total of \$3.23 yielding the \$28.23 bill.

I have no problem paying a "base charge" to help support the infrastructure of the power company but a minimum bill of \$25.00 is, in my view, excessive and unfair. It is also counterproductive with regard to encouraging other individuals from installing solar or other renewable energy sources.

I will be sending a copy of this note to my state representatives for further review.

Your comments on this matter would be appreciated.

Best regards,

Geoffrey Davis
