**Subject:** FPL Min. Bill

I am a solar panel owner since 2008. I have spent \$35K on panels. My system generally produces more KWh than they send me = netting 0 Kwh I used & building up a Kwh reserve. My bills thru May 2022 were \$9.23 for base fees & taxes. In June 2022 my bill was \$25.66!!!! I called FPL & they said YOU APPROVED a \$25.00 min. base bill. So I'm using 0 KWh but being charged like I consumed/they sent me 239 Kwh!! This is FPL attempting to get money out of the solar panel customers because Gov. Desantis vetoed the bill that would have given me credit for 1 Kwh for every 4 Kwh I sent to them. Why did I spend \$35K on a solar system? This Min. Base bill is FPL's attack targeting their solar panel customers!!!! I thought you were supposed to protect Fl. Consumers not be there to prop up FPL's profits at it's customers expense. I thought the 'government' was pushing 'the new green deal'. This is the thanks I get for trying to be energy responsible- YOU LET FPL RIP ME OFF!!!!!!!!!!
