**COMPLAINT INFORMATION**

**Complaint:** Improper Billing against Florida Power & Light Company  
**Details:**

FPL has decide to take revenge on Solar PV addresses in tacking and additional "Minimum Base Bill" to a bill that does not meet a \$25.00 Statement. There is already a base charge of \$8.99 on this bill but an additional \$16.01 is added without providing any additional service. The equates to 147.45kWh that goes no where. Additionally, when my usage exceeds my production, and I decrease the amount stored, I will STILL be charge for NOTHING provided by FPL. If they are going to charge me foe a product, then this amount should be placed in my stored account. How is this legal, or is it, charge for a product but give nothing. WE PV owner have paid a heavy price to assist providing addition power so the growing population will not have to suffer the issues in other states of lack of energy. After all are we not to be providing clean energy when possible?
