**Subject:** RE: TX606 Company Name Error

Good afternoon, Shelby,

Your message below was forwarded to me for review. I have reviewed MCD and see that Telapex Long Distance, Inc. previously had two IXCs (TJ465 which was cancelled on 6/3/08; and TJ570 which was deregulated in July 2011). Telapex operated under the FEID No. 64-0778596. Subsequent to Telapex's IXCs being cancelled and deregulated, Telepak Networks, Inc. filed an application for an ALEC and provided the FEID No. 64-0778596. Since we didn't keep up with FEID numbers in the old MCD, I believe that may be the reason for the error/confusion in the company name in MCD now. The FEID number associated with Telepak is the same as Telapex's was, and when the new MCD was written, and the information migrated from the old MCD to the new MCD, the "company name" picked up as Telapex while the "utility name" picked up the correct name for the TX606 utility.

That being said, I am going to use your request below to change the company name in MCD from Telapex Long Distance, Inc. to Telepak Networks, Inc. I will also put this information in undocketed matters (Dkt 20220000) for historical purposes. Thank you for bringing this to our attention!

Dorothy

**Subject:** TX606 Company Name Error

Good afternoon Brian, I was looking through docket #20220115 and noticed a discrepancy with company name attached to TX606. Currently the MCD shows TX606 is associated with "**Telapex Long Distance, Inc.**" After doing some research and talking with my supervisor we believe this is done in error and should be corrected to the utility name "**Telepak Networks, Inc.**".

Sincerely, Shelby Nave
