**COMPLAINT INFORMATION**

Complaint: Other Complaint against Florida Power & Light Company

**Details:**

The Minimum Base Bill from Florida Power and Light is wrong. How am I getting charged for something that I am not using. To say it another way, I am paying significantly more while maintaining the status quo. This is 100% a revenue grab from Florida Power and Light and not about paying to upgrade or maintain the grid. If I use enough electricity, I don't have to pay the fee. But when I don't, I do? How is that fair. If you want to allow them to charge a fee every month to all users for grid maintenance and upgrades, fine. I have no other power options in my area. So a monopoly was allowed to raise prices again under the commissions watch. This must stop. You are supposed to be serving the public, not the corporations.
