COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company
Details:

FPL is at it again. Now they are seeking a rate increase to start a long process of converting above ground power lines to below ground power lines. The price tag of this conversion is astronomical and it would be a long term project. FPL has placed suffering on the residents of NW Florida since it acquisitioned Gulf Power & Light some months ago. Seniors are suffering as a result of the takeover by FPL and rates increased immediately. The fuel costs that FPL tags on to residents

monthly bills is just too high. Now that high inflation has kicked in, we are paying more to feed our families, gas to get to work, some very real supply shortages, etc. and now FPL was another rate increase. I request that you deny their rate increase and give us some "breathing room" due to the high cost of everything to sustain our way of life.
