RE: Docket No. 20220064-WS
Tymber Creek Utilities, Inc.

To Whom It May Concern:

I am filing an objection to the sale of Tymber Creek Utilities to Central States Water Resources due to the irresponsible practices of Tymber Creek Utilities concerning their damages, and lack of repairs to certain areas in our neighborhood. They failed to properly repair damages done when they worked on an underground wastewater leak. They are not responding to any requests by our HOA to fulfil their obligations to make any repairs.

I also believe that they have overcharged the owners in their fees for sewage costs. Our water charges are basically the same as what the City of Ormond Beach Charges, however they charge more than double what the city charges for sewer services. When inquiries have been made concerning this, there has also been no response.

Personally, I feel that Tymber Creek Utilities has gotten away with cheating this neighborhood by their lack of obligation to do what they are supposed to do, and by their lack of responses when residents make inquiries. Holding this company accountable is long overdue.

Thank you,

Lisa Bennett
