Florida Public Service Commission Clerk,

Re: 20220067-GU

Two things are very wrong with this proposal. #1 if these four separate entities are merging into one their operating cost(s) should go down not up. #2 what is a "fair return on investment" for a "public" utility? What is your current return on investment, and how much will your return increase with these changes?

I urge you to reconsider this rate increase at this time.
