Subject: Re: 20220067-GU - We Can't Afford Higher Gas Rates

Commissioner Art Graham,

Re: 20220067-GU

I am a Broward natural gas Cust Omer and my husband and I (79 &75) live only on our Social Security and cannot afford a single penny more in increases of ANY KIND. So far you have not been very responsive to our pleas for increased regulations of utilities but we are desperately hoping that you will consider the situation that so many of us are in at this time.

Phil and Joan Bueter
Hollywood, FL

I am writing as a concerned Florida resident and a natural gas customer. I received notification that my natural gas supplier intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reconsider this rate increase at this time.

PLEASE!!

Commissioner Art Graham,

Re: 20220067-GU

I am writing as a concerned Florida resident and a natural gas customer. I received notification that my natural gas supplier intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income, such as my husband and I and many of our neighbors. We are all in fixed incomes and are all inundated with price increases on everything from food to medications and healthcare itself. We moved back home to Florida from Virginia and live it here but for the high cost of utilities. Natural gas provided heat during the coldest days of last winter and, should there be a power outage due to storms, we have a generator installed that is natural gas driven so that we can be self sufficient rather than lean on local government to care for us in a power outage emergency. If Natural Gas prices are increased, our fixed income, already stretched by the highest utility bills in Florida, will not be able to provide basic heat in winter or care for us during power outages. I humbly request that you phase not institute a rate hike on Natural Gas.

I urge you to reconsider this rate increase at this time.
