**Subject:** Rate hikes

My name is Lee alexander and TECO has raised my rates 3 times in last year not including the green energy addition even tho I do not have it. They are talking a rate hike for fuel cost even after the huge fuel cost from last August that price never came back down even tho fuel price came down. How many more increases will Florida allow per year. I know inflation is high but your not helping by allowing them to keep taking more and more
