COMPLAINT INFORMATION

Complaint: Other Complaint against Duke Energy Florida, LLC d/b/a Duke Energy

Details:

I understand that Duke Energy wants to raise its rates again. Over the last year and one-half my electric bills have gone up for the same kilowatts used last year. They already have a built-in fuel surcharge that covers their fuels variable charges. This amount differs depending upon what price they are paying for fuel. They say gas is 70% of their cost and that differential is covered by their existing variable fuel surcharge. If you allow a raise in the base consumers cost, they will still continue to add whatever they have to pay for more expensive costs. This will result in unfairly high bills. Most people in Woodland HILLS now have undergone a 45 - 60 percent increase in the last year.
