Subject: Docket No. 20200181; Help us manage unaffordable power bills

Dear Florida PSC Commissioners,

We r Just a hard-working family and have started digging out of the economic impacts from the COVID pandemic, now we are hit with huge increases in our power bill! from base rate increases and recovery charges for volatile and high fossil gas costs. These bill hikes have led to us paying power bills that are higher than ever and we can't do it anymore. We have had to chose between ac and food. Or rent!

Access to meaningful energy efficiency programs can help customers most in need manage higher power bills, by getting right to the source of the issue: reducing energy consumption. Using energy smarter is the quickest, cleanest, and cheapest way for the utility to meet energy demand while also helping Floridians cut energy waste and save money on power bills. It's a win-win solution that can be realized if you take action to support this common-sense solution.

As you update your efficiency goal-setting rule, please do so with an eye to making Florida a leader in capturing energy savings for families and businesses allow us to overdo solar with no penalties. Make insurance companies insure us after five us better incentives. modernize our practices to put efficiency to work for all in unlocking savings for all Floridians

cc: Governor DeSantis

Sincerely,
Lisa Evers
